

June 19, 2019

Dear Valued Customer:

We regret to inform you that due to a discontinuation of a raw material used in the production of EPOCAST® 167, Huntsman will no longer be able to manufacture this product.

Material Description
EPOCAST® 167 A/B US 6Q 7.2LB

In its place, Huntsman can offer the closest alternatives as EPOCAST® 1488 or EPOCAST® 169 A-1/946. We recommend our customers make the final determination to check that the product is suitable for their specific application.

Material Description
EPOCAST® 1488 A/B US 4G 15.8LB
EPOCAST® 169 A-1 / 946 US 4G 19LB

Please be assured that we will do our best to make this transition as smooth as possible for you and that you can expect the same level of service from us during the upcoming months that you have grown to expect from Huntsman in the past.

We appreciate your loyalty to Huntsman for EPOCAST® products and thank you in advance for your support during this change process.

Regards,

A handwritten signature in black ink that reads "ACOOPER". The signature is written in a cursive, flowing style.
