

VI7

Flow media

Ideally suited to infusion applications

Features

- VI7 is a good value product designed for use in vacuum assisted resin infusion processes.
- Thanks to this product, the resin flow across the laminate is really fast and allows for a sustainable air evacuation route when used with appropriate bagging materials.
- The product can also be beneficial in debulking applications as it can be used as a reusable breather beneath bagging film to ensure adequate airflow.

Properties

Maximum use temperature	80°C	176°F
Colour	Green	
Fibre	100% polyester	
Weight	160g/m ²	4.72oz/yd ²

Availability

Width	1m up to 4m	1.09yd up to 4.37yd
Length	100m	109yd
	(other lengths on demand)	
Roll weight	Up to 16kg	Up to 35lbs

Storage

No special storage conditions required.
